SR-91 is one of the most heavily traveled freeways in Los Angeles County and was also one of the first freeways to offer carpool lanes. As a result of heavy use, the asphalt pavement has experienced extensive wear. New pavement will improve safety and mobility for motorists. Completion of the entire project, which covers SR-91 from Downey Avenue to Vermont Avenue, is fall 2008.

Caltrans advises motorists to “**Slow For The Cone Zone.**”
